

LAYAN BADR ALOTAIBI

ARTIFICIAL INTELLIGENCE, LLM & GPU SYSTEMS

Riyadh, Saudi Arabia | +966 54 149 9631 | layanbadralotaibi@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Honours Information Technology graduate focused on artificial intelligence, natural language processing, LLM infrastructure, and applied data analytics. Brings hands-on experience reviewing machine-learning models and Power BI dashboards in an energy-sector AI environment, complemented by award-winning deep-learning and NLP project work. Co-author of an under-review study on Arabic-English infrastructure agents, with focused training in NVIDIA GPU engineering, distributed LLM systems, transformer-based NLP, and Azure AI. Combines analytical depth, collaborative problem-solving, and clear technical communication to support practical AI innovation.

PROFESSIONAL EXPERIENCE

Cooperative Intern - GRC & AI - Saudi Energy Company, Riyadh, Saudi Arabia

January 2026 - May 2026

- Reviewed machine-learning models and Power BI dashboards to understand data flows, identify operational patterns, and support evidence-based AI insights.
- Supported AI and data-governance activities by examining data processes, compliance frameworks, and alignment with internal policies.
- Completed the cooperative placement with a perfect 100/100 evaluation, recognising strong technical contribution, ownership, and delivery quality.

EDUCATION

Bachelor of Science in Information Technology - Second-Class Honors

Princess Nourah bint Abdulrahman University, College of Computer and Information Sciences, Riyadh, Saudi Arabia

Graduated June 2026

CERTIFICATIONS

- Building Transformer-Based Natural Language Processing Applications** - NVIDIA | Issued August 2026; Certification ID: -ZeUljKYRGimnQ_9KUx_lg
- Microsoft Certified: Azure AI Fundamentals** - Microsoft | Earned October 2025; Credential ID: 37802FBF77DC6B56; Certification No.: 157AB4-B1056T
- Artificial Intelligence Concepts and Advanced Applications** - SDAIA, Million Saudis into AI Initiative | Completed September 2025
- Introduction to Cybersecurity** - Cisco Networking Academy / Saudi Community Service | Completed March 2026
- Power BI 101** - SATR e-Learning, Tuwaiq Academy | Completed June 2026; Beginner; 2 hours
- Deep Learning Concepts and Applications** - Simplilearn | 2025
- Leadership Out of the Box** - Coursera | Completed November 2025; Specialization (4 courses)

TRAINING COURSES & BOOTCAMPS

Tasaru' Bootcamp: GPU Engineering for Large Language Models and Agentic Systems | 2 Months

- Built familiarity with high-performance AI infrastructure, including NVIDIA GPU architecture, CUDA, kernel optimisation, and GPU interconnect technologies.
- Studied scalable LLM training and deployment patterns using PyTorch, DDP, FSDP, pipeline and tensor parallelism, NCCL, LoRA, mixed precision, and FP8/FP4/INT4 quantisation.
- Expanded inference and orchestration knowledge across NVIDIA Triton Inference Server, TensorRT-LLM, vLLM, Kubernetes, and Slurm.

RESEARCH PUBLICATIONS

OpsMix-Ar: Executable Evaluation of Arabic-English Infrastructure Agents | Co-Author | Under Review

- Co-authored an under-review study introducing an executable benchmark for Arabic-English infrastructure agents operating in a controlled environment with English-only tools.
- Addresses agent reliability through evaluation of task completion, final system state, tool trajectories, argument selection, safety, unavailable tools, and prohibited actions across Modern Standard Arabic, Gulf Arabic, and mixed Arabic-English requests.

PROJECTS & ACHIEVEMENTS

AmanPlay | Deep Learning & Natural Language Processing | First Place - Thakaathon Hackathon

- Engineered an intelligent digital-safety solution that applied AraBERT and deep-learning techniques to monitor online environments.
- Applied CNN and LSTM architectures to detect toxic content and automate moderation workflows, helping advance safer online interactions.

Dental Clinic Management System | SQL

- Designed and implemented a relational database supporting patient records, appointment scheduling, and billing workflows.
- Strengthened information integrity and query efficiency through deliberate relational-schema design and advanced SQL retrieval logic.

SKILLS

TECHNICAL SKILLS

- AI & Machine Learning:** Model review and AI concepts.
- Deep Learning & NLP:** Transformers, AraBERT, CNN, and LSTM.
- GPU Engineering:** NVIDIA GPUs, CUDA, and kernel optimisation.
- AI Infrastructure:** NVLink, NVSwitch, InfiniBand, and RoCE.
- Distributed LLM Training:** PyTorch, DDP, FSDP, parallelism, and NCCL.
- LLM Optimisation:** LoRA, mixed precision, and FP8/FP4/INT4 quantisation.
- Inference & Orchestration:** Triton, TensorRT-LLM, vLLM, Kubernetes, and Slurm.
- Data & Product Tools:** Power BI, SQL, relational design, UI/UX, Office, and project tools.

SOFT SKILLS

- Leadership & ownership
- Collaboration & teamwork
- Clear technical communication
- Analytical thinking
- Problem-solving
- Planning & time management
- Adaptability & learning agility
- Accuracy & attention to detail

LANGUAGES

Arabic: Native

English: Professional Working Proficiency
